AW Subcommittee Members

Hope everyone is well and spring is springing (Alaska, we'll think of you). Here's some information and updates.

1. Michelle and I are in the throes of finishing the draft final report. **You will be seeing this at the latest early next week.** Because it has gone through such thorough editing by the drafting work group, we will be sending it out in PDF. This will still allow anyone with final comments to "yellow stickie" the draft per Adobe Acrobat, but not succumb to the temptation of line editing.

2. Attached is the **meeting summary from the January meeting.** Please send along comments and note a question for you all on page 12.

3. Also attached is the **agenda for our April 17th webinar 2 to 5 PM EDT.** It is scheduled and we are planning on it (I'll send out a calendar invite soon). However, one glitch, the Federal Register Notice has not been published. As is typical in all new administrations, it takes some time to restart various review procedures. We'll keep you posted.

4. Please note that the intent is to report out to the **NACEPT** on the final draft as follows. Mark your calendars if you are interested in listening in.

- given on May 10th;
- 90 minutes either at 1-2:30 or 3:30 – 5 EDT;
- held at the NC Museum of Natural Sciences in Raleigh, NC;
- set-up for video-conferencing - for the subcommittee's participation.

5. Once we have received any final comments from the NACEPT, we'll finalize the report and have it published in a nice format that Michelle and I are working on with a designer. To that end, **we need photographs to include** — that could be any group pictures you have of us working, photos of wetlands, rivers, etc., or other photos you might have on hand. Please let me know if you have those and we'll create a means to transfer them.

Thanks much.
